SUPPORT YER LOCAL (AND NOT
SO LOCAL) SCENE..

LOCAL SCENE

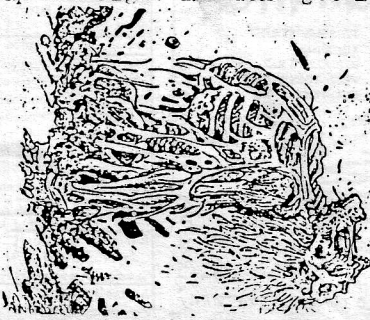

Well i'm quite pleased with the way our local scene has been going ju st lately, there has be en quite a few gigs put on in the last few months and they have been suppo rted well by the local and not so local people. As you can see on the pic ture on the left local ba nd Decadence Within have done a mini tour ~~xxx~~ suppo rting bands like Antisect, Shrapnel, Generic, Sacrile ge, the Depraved, and the Smart Pills. They also have appeared in many fanzin~~z~~ which means they are getti ng thier name across the co untry and so doing well for themselves. The Dismembered another local band who i ha ppen to play drums for have got a new bass player his na me is Paul and he made his d ebut ~~xxx~~ at the Talbot Head p ub on the 12th of April and play ed well, he has done another two

gigs scince then with us at Leicester and Worcester. Other local bands who have been giging are Achtu ng, Amplex, ~~XXXXXXXXXX~~ and Alienation. Fight Back another local band still hav'nt done a gig yet but should be doing some soon. The local zine~~z~~ that are around are Little Things Please Little Minds, from Slug, his address is in the zine~~z~~ slot also write to him about Decadence aswell. Decadent Dave is doing a zine as well called Still On Fire, This should be a real good zine its packed full of stuff its quite thick and the bands in it are - The Dismembered (yipee) The Depraved, BadBeach, and i'm not shu re about the rest but look out for it I'm shure you will like it. I hav'nt got dave's address at the moment but I i'll put it in the zine some where. So if things stay as they are there sho uld be quite alot going on in the next few months, we still hav nt got a regular venue yet but there are a few places being sus sed out and so ~~xxxx~~ maybe we will have one soon. anyway thats it for now ~~xx~~ on the local scene keep up the fight and dont get lazy.

ONE FIGHT

THE LEGION OF PARASITES

Well i expect most of you have heard of L.O.P. and maybe bought one of there records, ~~the~~ the first time i heard about was when i bought a compilation L.P. with one of thier tracks on it, ~~ix~~ i've listend to some more of thier stuff since then and so i decided to drop them a line.

Q Did you yourselves like the way the L.P. came out, why did call it the prison of life, how well has it sold, how well did the I2" do.

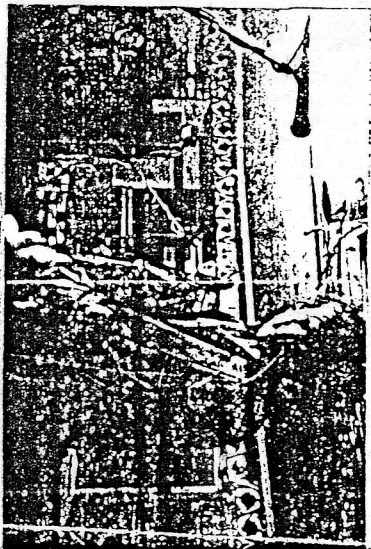

A We thought the L.P. was powerful, and the drums and vocals were really good, but the bass was weak and the guitar too quiet. We called it the prison of life because the picture on the front fits that title well. All the different parts of the cover represent unhappy, nasty things, also the song prison of life is about how animals are kept in prisons and used and abused for mans benefit. The L.P.'s sold about ~~ixxxx~~ 1500 and the I2" did nearer 2000 but i'm not sure of these figures they are under-estimates-if anything.

Q I read a review of the L.P. in a fanzine and in it ~~xxx~~ it said that you sounded or were trying to sound like Disorder, what would you say to this.

A Yeh, i read that too we sound F.A. like Disorder no offence to them but we're totally different and as for trying to sound like them -No sorry again.

Q I've heard alot of people say that compilation L.P.'s are just for bands who would'nt be able to get a record out on thier own. Do you think there is any truth in this.

A Well i would say that comp L.P.'s are for anyone and every one big or small bands. Obviously it helps lesser well known bands to go on ~~any~~ a comp before releasing anything. It helped us after being on Bollox to the Gonads comp we had loads of mail from all over the world. So it started the ball rolling for us.

Q Have any of you been in any other bands.

A No.

Q How much time does the band take up, what do you all do outside of the band.

A We practice most sundays. Occasionally gig if anyone gets us one.

We all work unfortunately in shit jobs. If we could make a living from the band without ripping anybody off we would.

Q There seems to be an increase in child abuse in this country what do you think of the people who commit these crimes.

A Thier sick bastards. They must have some mental problem it's such a shame.

Q Are any of you pacifists. What would you do if you got caught up in a mass scrap at a gig.

A We'd be ready to stop anyone causing trouble at a gig but i dont know what i'd do if someone at a gig ~~xxx~~ had just hit me, it would be hard not to fight back i suppose i'll know when the time comes. But hopefully it wont.

Q What do you think of the U.S.A. and old Ronnie.

A The U.S.A. is ok as a country but power means alot more to them Americans they just love it. Ronnie's a bit thick I'd say, it seems like he's not all there. American people are ok as long as they can act responsibly just the same as any person really.

Q Why the name a Legion of Parasites who thought of it.

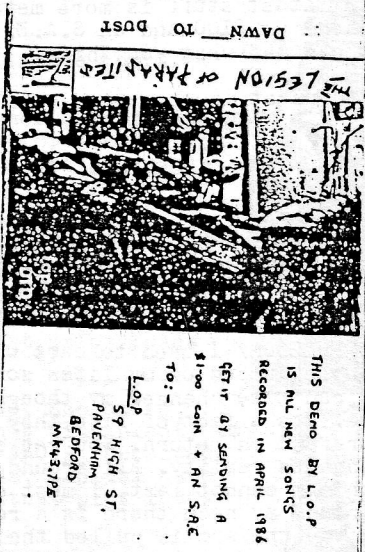

A The name represents everyone and everything. Everyone needs each other to survive and it's the same with animals and nature. A parasite lives off something else. A legion is a huge force, the legion of parasites its us you and me.

Q What plans have you got for 86.

A 86-87 we'll get popular as L.C.P. or change our name to D.T.D. and start all over again playing more thrash metal type stuff. Our next E.P. or 12" or L.P. or whatever is gonna be more that way so we'll see how people take it.

Q Anything else you want to add.

MORE OVER

A Yes our latest stuff is more metally if you are inter-
ested send us £100 and an S.A.E. and i'll do you a copy
so you can see what you think.

ERODED FREEDOM/ I used to care when things went wrong
the needle jumped on my lifes song, but at this time
things can't be changed my thoughts they think i'll re-
arrange. Its a fact of life they say i'll learn there
is no refund on return. You get so shocked at fantasy,
its gonna be reality. All around so many bars i'm lock-
ed within i cannot last, i must escape there must be
hope around my neck there is a rope, the government is
at the top the arm is pulled the people drop, we jolt
around so desperately the music fades-perhaps we're
free?

ZINEZ

First of all i'd like to say that the zines i have
talked about are a bit dated now but it gives you an
idea of what they are about.

10 years on from Graeme Price 26 Main rd, Trimdon, Co.
Durham, TS29 6QD. Good zine this only 20p the bands in
no 6 were Dan, The Sect, Down Syndrome, Decadence Wit-
hin, Shrapnel, Civilised Society, and Terveet Kadet.

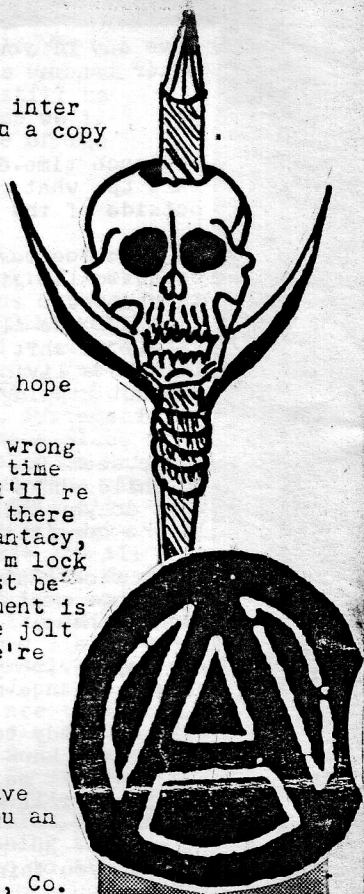

Little Things Please Little Minds 3 10p from Slug-
Eastlea, Homend Cres, Ledbury, Herefordshire, HR8 1QA.
This is done by an ugly fucker i know called Slug an
it's a good zine in it are Lunatic Fringe, S.O.F. -
Sacrilege, Deformed and the Varukers plus lots of oth-
er stuff.

Wart Zine from Graphic Designer, 76 Marlborough rd, Chis-
grove St 9AL. I dont know the price of this zine so you
will have to write off and find out wont you. Its got a
few cartoon strips and loads of other stuff so it's qui-
te a big zine.

Black Sheep Anarchist zine No 1 20p. From D.A.M. post
box 'D' Mandela House University College Swansea, Singl-
eton pk, Swansea. Interesting zine to read but not xi
a lot for 20p but dont get me wrong it's ok and i like
most zinez because i know how much work goes in to em.

Statement zine from Rat-Pensilva, Old Church Lane, Sels-
ley West, Stroud, Glos, GL5 5LH. 20p

Guilty Face Zine from Peter Nixon, Hulme Hall, Oxford
place, Victoria park, Manchester, M14 5RR. 25p

Have a Good Laugh Zine from Trev, 57 Briardene, Burnop
field, Newcastle Upon Tyne, NE16 6LJ. 20p

Wipeout Zine from Spencer Mak, 37 Macklingate court,
Aginccourt, ONT M1V, Canada. £1.00

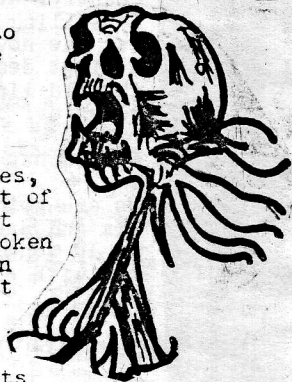

Living In Fear No3 from Stu, 193 Kirkmeadow, Bretton,
Peterborough, PE3 8JN. 25p Not a bad zine this but it's a
bit small for 25p. The bands init are - Attrition, Nega
zione, Oi Polloi, and Decadence Within.

Blown to Bits No9 from Bazzy, 33 Ronaldshay rd, Widnes,
Cheshire, WA8 0YR. I didn't like this zine much i dont
really know why because it's nice and thick for 25p and
so it was worth the money. The bands in it are - Capital
Scum, Classified Protest, The Distemper, Sad Society, -
War Fare, Potential Threat, Terveet Kadet, plus loads
of other stuff.

Brains Thinking No5 from Mark, Briarside, Hansom rd,
Hinckley, Leics, LE10 1LL. Good zine this with plenty to
read and lots of bands like Sacrilege, A.O.A., Decadence
Within, Depraved, Aftermath, Red Brigade, Capital Scum,
Death Sentence, English Dogs, Anarchristus, plus loads
of reviews and other stuff. 25p

Blown to Bits No10 25p from Bazzy 33 Ronaldshay, Widnes,
Cheshire, WA8 0YR. This fanzine is shit which is a bit of
a shame because it could be good if a bit more thought
was put into it. The bands init are - The Stupids, Broken
Bones, Exploited, A.O.A., Kromzom 4, Some of the stuff in
this zine is shit and sick i think this bloke is a bit
frustrated.

L.S.D. No1 from Sue at c/o 10 Teakbrook, Covingham,
Swindon, Wilts, SN2 6OA. No bands in this zine but lots
of poems and other stuff. 25p.

RIPCORD

Ripcord are a four piece band from Weston-s-Mare they have
been going since September 84. I met one of them at a gig
in Brum and he told me he was in a band so i sent off an
interview and this is the reply i got.

Q When and why did Ripcord start. How many gigs have you
done, which has been the best.

A Ripcord were formed in september 84 we were all in bands
before which were slower more conventional melodic punk
bands. Ripcord have only done a few gigs at the moment.
The best was at Portsmouth with the Varukers, Depraved,
Ad Nauseam, and Extreme Noise Terror.

Q I think one of you said that you have had a few line up
changes, why do you think this is.

A Yes we have had a few line up changes mainly because the
old members got fed up playing thrash, and they were not
really into the music anyway.

Q Whats life like where you come from is there much going on that interests you.

A Its ok in weston but there's not much going on in the way of punk bands, gigs ~~and~~ that we know of, there are twenty punks here, not many considering the size of the place. Its mainly filled with O.A.P's and rockstarish bands (apart from us)

Q How well have your demo tapes sold.

A Our demos have sold reasonably well we try and sell some at gigs we go to around the ~~area~~ country. We are only selling the latest one now, as the first demo has the old line up on it (even though we still do most of the songs off it live).

Q Do you have any plans for any records.

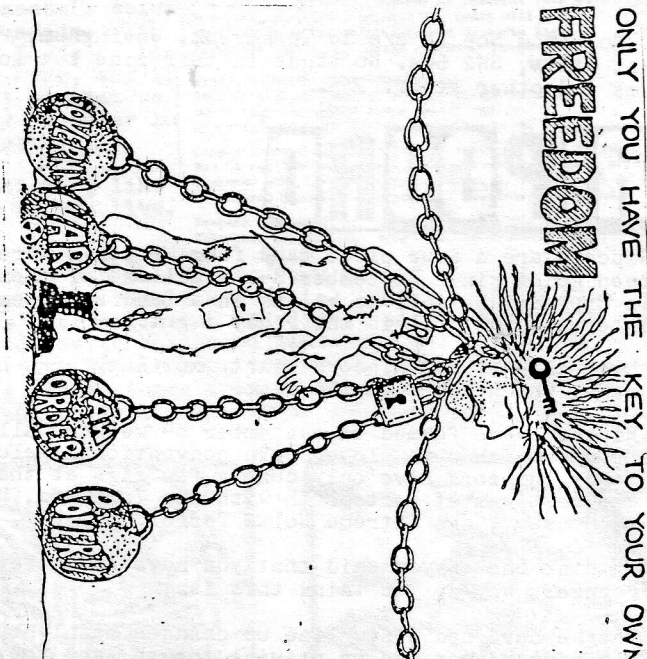

A We are going to do a flexi fairly soon, we've got the details and are sorting it out, it will probably have about 8 to 10 songs on it. There are rumours of us doing a split 12" with either Anti Climax or A.X.S. but we dont know yet.

VOCALS: BUSBY
LEAD GUITAR: BA3
BACK GUITAR: STEVE
DRUMS: WIND.

Q What do you think of violence at gigs, have you ever been to a gig where there has been a lot of violence.

A We hate seeing violence at gigs, fortunately though it seems to be less frequent at the moment. It used to be bad a few years ago in Bristol, especially when Crass and Conflict played. I think attitudes have changed now, x a few years ago if someone was getting kicked in every one just watched and stayed out of it, but if anything starts now it usually gets stamped out.

Q What problems do you have being in a band.

A Finding gigs, buying better gear, but apart from that we're lucky to have a reasonable place to practice and have transport at the moment.

Q Do any of you work or do any sort of scheme.

A Yes all of us work, thats why its hard for us to do gigs in the week, any weekends are ok though.

Q What do you want to achieve with Ripcord.

A We dont want to achieve anything, but to just have a good time and enjoy ourselves, but if people like us and the message in the songs gets across well thats a bonus.

Music for Animals.

On Saturday the 11th of January in the village of Winscombe (Nr. Weston) an 'Animal Liberation' benefit gig was held.

It was organised by Davey, drummer with the band '45 and the Agents' who played along with Weston punk band 'Ripcord'.

Forty pounds was raised to help the animals, the bands and everyone who helped, gave their services free.

The entrance hall was decorated with animal rights posters and leaflets and the 'Free Mone' petition was signed by lots of people.

Thanks to Davey, the bands and everyone who helped. It goes to show that an evening of enjoyable music can be worthwhile - The bands also recently raised fifty pounds for the Ethiopian famine relief fund.

So get writing ya bums.
and for the Ripcord West Coast Thrash demo send 50p + blank tape C46 (minimum) or just x £1.00 to the above address.

cheers John for answering the questions and sending the art work and lyrics.
If anyone wants to write to Ripcord the address is x - John Millier, 14 Cornwa 111s ave, Worle, Weston-S-Mare, Avon, BS22 9PF.

Q Is there anything else you would like to add.

A Not really, just cheers for putting us in your fanzine, and anyone who wants to write to x us, please do but send an S.A.E. for a certain reply.

REPRISAL

Reprisal were formed in September 83 and the first line up was Banjo Drums, Jonah Bass, Toc Guitar, And Huttie Vocals,. Since then Jonah has left and has been replaced by Lee. They have done plenty of gigs with bands such as Retaliate, Civilized Society, and The Snapping Bogseats. They have recorded 3 demo's and they are willing to do gigs anywhere, if anyone can get them a gig the address will be given at the end of this interview.

Q What is the line up, are any of you vegetarians or vegans.

A The line up is Banjo Drums, Huttie Vocals, Toc Guitar, and Lee Bass. Lee is the only vegetarian in the band.

Q Why did you put both of your demo's on one tape, how well has The Time Has Come sold.

A We've done 3 demo's and we put them all on one tape because its cheaper and i fucking hate listening to short tapes, i like listening to longer so you can get into before them ending just as you get to like them.

The Forgetting n Victims demo sold loads, which i was quite surprized at really. The second time has come, we didnt like it so we didnt sell many of them. After the third we put them all on one tape and called it The Time Has Come, which has sold a fucking lot.

Q I read a review of said you were good British punk band, sal were just another think labels are s

A I dont like labels but not standard l On we play nice to its not like alot hear today. Lots o are out of date bu ple have sent me m of the demo and th and said that we wondered why we ha

the demo and in it it but just another standard would you say that Reprisal punk band or do you stupid.

but we are a punk band, like it said in 10 Years nerul stuff 1981 style of noise and shit you f people have said we t thats shit lots of peo oney and tapes for a copy en they have wrote back are brill and they have , ent got a record out.

Q What sort of things do you write about in your lyrix, ~~xxx~~ who writes them.

A We write about all sorts of things really but nothing in particular, we all chip in with the lyrix.

Q Have you got a good following in your area, are there any other bands you can do gigs with.

A Yeah we've got a good following down here, who've never missed a gig, they come down with us to Leeds and a few went to Stoke and Chesterfield we took two car loads down there.

There is a couple of bands down here, Annihilation and Metal Duck who are coming along nicely.

Q What do you think of shops that sell punk clothes.

A Money grabbing ~~xxxx~~ assholes, they need shooting, I don't use these shitholes. They are meant for poor punks who's ~~xxxx~~ mummies and daddies can afford to buy them a bin bag for £30.

Q Do any of you do a fanzine, what do you think of them.

A We were going to do a fanzine but it fell through. We think Zine's are great, I always bring them at gigs. There's a good little read and they let you know what's going on. They also give bands the publicity they need.

NAZI SCHEMES IN THE GUISE OF POLITICAL POLICIES/WE MUST WHITE TO WIN THE FIGHT, CAN'T YOU FUCKIN' SEE? MORE ZINEZ

Die You Fucker zine 15p from Bully 103, Purlewent Drive,
Weston, Bath, Avon, Bal 4BE. Good zine this for a first
isste the interviews are interesting and fairly long the
Apostles interview is about 5 pages long. The bands in it
are the Apostles, the Amebix, Disorder, Concrete Sox, and
Hellbastard. Also theres the usual reviews and stuff.

Still On Fire zine 25p from Dave, 4 Lambourne close, Deer
park, Leabury, Serefordshire. Take a bloke called Dave,
who calls me a weirdo, (Bastard Dave) and put him in a pad
ded cell with Slug and a typewriter and you will end up
with a zine called Still On Fire which i must say is one
of the best zineaz that i have bought so far. Dave has rea
lly got his shit together well with it, the lay out is we
ll sussed and the bands in it are - Decadence Within, The
Depraved, Bad Beach, The Dismembered (yay), and Hung Drawn
And Quartered For a Measly 12 Quid.

The Next World are a three piece band from Kettering and they got in touch with me when they sent me a tape with 8 songs on it called Reagans Threshold. Anyway they also asked me if i could do them an interview in the zine so i sent off a few questions and this was the reply i got only two days after sending the questions which i thought was pretty quick.

Q When i first listend to your tape i thought it sounded a bit like some of the early Cure stuff, Do you like the Cure what sort of bands are you into?

The Next WORLD

Darron- Not sure about this Cure comparison at all....No, we sound nothing like them. At the moment the bands i am into are - Heavy Discipline (who are practising here in my front room at the moment). They are definately the best band around now. I also

listen to alot of Discharge, Motorhead, Crass, etc, i like alot of music but at the moment i like the loud fast stuff. Mark- None of us have any records, therefore whatever we play is our own invention, but by using guitars you've got 30 years of songs across the treatboard. Thats why bands sound alike, because in affect they are still playing Beatles songs I'd forgotten who the Cure were untill you mentioned them, anyway what are they the cure too. (Incidentally they're middle class horseshit).

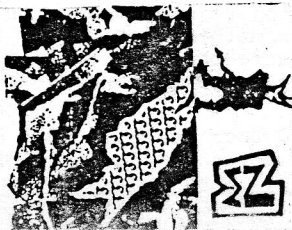

Steve- ~~Wetix~~ We get lots of comparison s - but the Cure thats a new one, i do like thier early stuff, they were my favourite band a long time ago.

Popular music is in a really drab state at the moment, but you've got to listen to something hav'n it you? so forme this is mainly the Swans, with ocassionaly Husker Du, or something emotional like early New Order.

Q Why the drum box could you not get a drummer, or is it your way of being different.

1 ent.

Darron- Why have er got a drum box? why can't anyone talk to us without asking that question.

Darron- We hav'nt gone for a different sound. Steve and Mark wrote the songs and they just turned out that way. There was no ~~intention~~ intention of having a certain style. X Mark- WE're eighties punks, todays society is run by machinery and computers so we use a drum box to make a point about this AUTOMATION so you should listen to ~~ix~~ more themes about what society is, too many bands want an exclusive 'punks only' utppia, surely after 10 years of punk it should sound slightly different ?. I hope you listen to the Subhumans, but make room for us. Steve- Punk as a protest music has become something of a ghetto. We didn't intentionally set out to create our own style - just kept an open mind. I'd like to see us infiltrate the mainstream of music tastes rather than try to get away from it.

Q What did you think of the latest actions by America against Libya.

Darron- America ~~xxxx~~ says it was a defensive move, but any use of violence is offensive. I totally deplore the American action. Violence leads only to more violence. There are no answers to be found in bullets. X Mark- My sisters best friend married a fly boy from ~~ix~~ a U.S base, so i got to hear about the shit the Americans put on thier own servicemen, the yanks are not all reaganites, but still thick with his 'Free West' shit. America thinks it's the most dominant country on this earth, so every now and then it has to flex it's muscles even on fellow fascists like Libya. Alot goes on behind the scenes, the C.I.A, - Mafia all interene in World trouble spots, finding death squads, they probably even aided libya in brining in arms (which shot down the FI-II's)

it gives sun readers something to talk about, and it brightened up thier mundane existence. Steve- It certainly spurred us into action. The tape was just being made around then and i think the cover fits the mood of the time in some ways. My personal ambition is to get a gig to a packed crowd in America, wait and then say "your not hearing a note from us till your fucking missiles are out of our country" then walk off again.

Q Do you think that the Chernobyl accident will have any affect on the nuclear industry.

Mark- No effect because it employs people, and someone gets rich from it. There ~~xxxxxx~~ aren't many industries thrive on peacefull production, you only get jobs these days if it is connected with someones death.

Steve- The accident will sway public opinion against

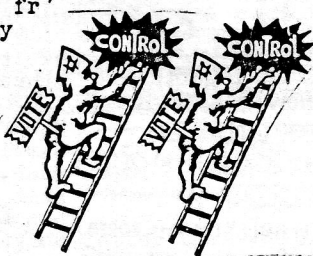

nuclear power, unless of course people are taken in by the ~~propaganda~~ "well hear in the west our technology is far more superior to thier cheap communist crap" (propaganda) but 25 human lives is a far too high price to pay to make people aware of the dangers.

Q What have your gigs been like so far have you done many, have you got a local following.

Darron- We've done three gigs (and had three cancelled). Two went really well, we played with the Amebix in Kettering a couple of months ago and did an A.A.M. benefit in Feb. mark- Our first gig was an Anti-Apartheid bash in Wellesborough, we had some skins enjoying it, even though the sun says they shouldn't be friendly towards people with very long green or purple hair - (Darron and Steve), it showed that barriers don't have to exist. At gigs in Kettering we had loads of damage because of wrecking crew punks, the bills roll in, we had one recently for about £130, we had a benefit gig which raised £2-- towards it. In future we'll be ready with baseball bats. We want Decadence With in and the Icons of Filth to play here, and if we lose out on that we will simply go under because of debts.

Q Whats Kettering like as a place to gig live.

Darron- Ketterings got potential, its got halls, its easy to get to, but most of the people are really apathetic. Audiences have dwindled, bands have split up, and direct action has virtually stopped due to suspended sentences and the like. The only active people here are us and Heavy Discipline, but getting any response is virtually impossible. There is hardly any unity in this town. continued over

anything but dont be so normal and RESTRAINED, why go to a theatre when you can hold your own play in a car park, why go to the Hammersmith Odeon when a band could play in a scout hut? We are all about breaking illusions and even the most harmless rules, so why do so many people go to bed when the T.V. stops? thats an imposed curfew, all those things your parents tell you, "you cant do that" give yourself a chance, try and overshadow the hate and the dealings of the powerfull elite with your own imagination. The drole is a chance to realise that work is not the golden rule, if you can survive it, you can grasp what is possible, the Next World. Steve- We were floundering about without a name for

it, it's crazy, like Southwell we try and innvocate action here, but we're a minority there are to many week end punks who want H.M.V Sonsxie, black make up, T.V., and McDonalds, the y're already dead. Steve- Kettering is brain dead. consequently a good place to live, every thing that happens is put on by us there is nothing put on for you. We owe alot to Heavy Discipline's un dying enthusiasm. Actually they are round here now, practising 'Marshall Law' in front of me as i write - you really ~~xxxxxx~~ should get these chaps in your fanzine.

Q Why the name The Next World who thought of it.

Darron- Mark thought of it. Mark- You notice the religious groups AND thier avowed enemies the communists

offering either heaven or more just society, they are both bollocks, we say dont hold back untill you are dead waiting for a better ~~xxxxxx~~ (after) life, move NOW use the planet to set up a decent world before the bomb takes away your chance, do

ages. then Mark came up with The 'Next World' well to be honest at first i really hated it, but he was really committed to it (thankfully or else we'd still be nameless). Maybe with a psuedo religious name we'll get invited to go on songs of praise, or one of the christian rock shows. x Now that would be fun.

Anything else to add or anyone to say hello to.

Darron- Yeah thnks to Slozza, Bozza, Gozza (no not really). I'd like to say thanks to Heavy Discipline, (Paul Steve, Paul, ~~XXXX~~ Jo and Jan) who've helped us out a lot got us gigs and sold us a brilliant demo (EXTREME MUTILA

Also thnks and hello to Slug, Systematic Annex for giving us a place in thier zine, and hello to Murph Rodney, Jan and everyone else who writes to me. Shit i've just been hit by a flying - H.D. drum stick. See you all at Leamington Anarchist fest,

On July 1st. Thanks again Dean love and life Darron. Mark- Be carefull of imposters like Anti sect. There are some good Anarcho bands around like - Systematic Annex, Heavy D, who wont fuck themselves up on drugs. Antisect are fond of American and Japanese tours, and you could even believe that they are spreading the message, find out for yourself. Poeple who have helped us are Stig of the Amebix (the eifell tower of rock'n roll), Chumbawamba, The Depraved, Henry (Black Flag) and the god like genuises who run fanzinez - Slug, Sick o war, Tim B (children of the revolution) and now Dean. Remember the system is a vanishing trick that went wrong. Steve- I'd like to say hello to AB wherever she may be.

Well what a bloody long interview, if every band answered the questions like this ~~xxxx~~ fanzinez would be alot better. Cheers Mark, Steve, and Darron. The address to write to these chaps is - T.N.W. po box 12, Kettering, Northants.

So another tape from the Decadent collection with two good bands and another good recording. I went to this gig so when i first listend to the tape it bought back memories of a good night, anyway on with the tape. The first side of the tape ~~xxx~~ is of Shrapnels set which is quite a short set because they were breaking in a new bass player, but even so it's good stuff, they did 9 songs x the best of which were Fact or Fiction, Heads you Lose, They are Wrong, Root of all Evil, and Missile. The B side is the Depraved and they also have got a new bass player and this was about his third gig, they did quite a long set and some of thier songs were - Reject that Mentality, the quite funny Lets grow some flowers together, BXX Boys, Agent Orange, and Shout. the Depraved are a good band live and at times they are quite funny. This tape is well worth a quid and you can get it from -

THE SNAPPING BOGSEATS

The Snapping Bogseats are a four piece band from Crewe, i got to hear about them when Mark the singer wrote to me and sent me some stuff to go in my zine. He also asked if i could do his band an interview, so i put some questions together and this is the reply i got. The rest of the band are - Jonny Brat Bass, Al Drums, and Hibbs Guitar. The line up has changed since thier de mo Feed the People.

Q,Why the name Snapping Bogseats are you a fun band,

A, No we are not a fun band, though we like to think of ourselves of at least having a sense of humour. After all the world isn't full full to the brim of shitty problems, there are alot of funny happy, beautiful experiences to be had. The bands name comes from a few years ago, the premier local THRASH band though only the vocalist is an original member from those early days.

Q, I read a review of your demo and it said that it might be coming out as an E.P. is this true.

A, Again no the E.P. was going to be a compilation of four bands and we were offered a place on the record. This is in fact one of the main reasons we did the demo in the first place. However the guy who was organising the E.P. got stabbed so things were delayed somewhat and unfortunately things have never been sorted since.

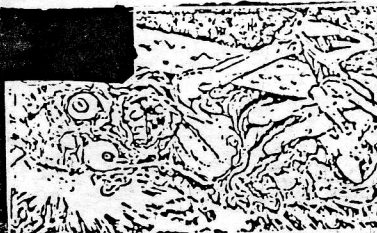

Q, What was your reaction to the Chernobyl disaster.

A, Horror. A disaster which to my mind was imminent though it remains to be seen whether or not people will take note and STOP it happening overhere. It simply isn't enough to pay your £6.00 subscription or how ever much it is to the C.N.D Chernobyl must never happen over here. Almost as soon as the Chernobyl thing happened didn't the E.M.F open up another plant in Scotland - people will never learn.

Q, Punk seems to be a bit stale in Britain at present, why do you think this is, as in the U.S.A, Germany, and Holland it seems to be more popular.

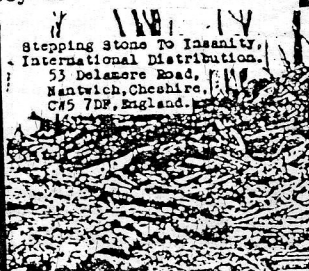

Q, Do you all take part in the S.S.T.I. distribution service.

A, No i run S.S.T.I. virtually on my own, however having said that, if it wasn't for all the great people i write to all over the world S.S.T.I. would not even exist-they are all fine friends.

TIP OF THE

Deviated Instinct are a four piece band from Norwich, they formed in September 84 and the first line up was Leggo Vovals, Mid Guitar, Trub Drums and Ian Bass, since then Trub has been replaced by Mark. They recorded their first demo in Feb 86 which is called Tip of the Iceberg.

I have only seen them live once and i was pretty impressed so i decided to do them an interview, this is the reply i got and the questions were answered by Ian.

1 What did you think of the Leicester gig, i thought the crowd were really apathetic, what did you think of the bouncers kicking Decadence Within off the stage after four songs.

A For me the Leicester gig was probably one of the worst we've played. The organisation of the gear was crap. The crowd did seem apathetic, and were dis-interested in the bands unless they played 10,000 miles an hour thrash. I think if i had known before hand that there were dickheaded macho bouncers then i would have thought twice about playing. Bouncers are totally unnecessary especially in a pub like the Kings Head. D.I. only got to do five songs before being removed so i guess both D.W. and ourselves were in the same boat.

2 Your sound i thought was very hard and metally, do you like alot of thrash metal.

A It has had an effect on our music, i personally dont like thrash metal at all, but Mid and Leggo do. I guess we've been influenced more by The ~~xxx~~ Amebix than anyone, i certainly have.

3 Whats Norwich like as a place to live, is there much that goes on that interests you.

A Norwich is a great place to live. Though it is very quiet, you have to make your own entertainment as there are hardly any gigs. But it's home so it's great.

4 I saw your bass player had an arm patch saying (meat eaters are total fucking scum), do you all feel this way, need i ask you what your views on ~~EA~~ animal abuse.

Q I can't speak for the others but i would'nt wear it if i ~~did~~ didn't feel that way. We also have a backdrop with the same slogan upon it. I think our views on animal abuse are obvious.

Q Do any of you take part in any direct action, what do you think of it.

A We all take part in direct action of one sort or another, I think it's very important. Actions speak louder than words. The effectiveness of marches has become obsolete, direct action is the only answer.

Q Are there any other ~~grrr~~ bands in Norwich you can do gigs with.

A There are several bands in Norwich, Angst, Angry Watermelons, and Revulsion to name but a few. I don't think we'd play a gig with anyone if it was in Norwich. We are reluctant to play here because we've played here so many times before it's boring and Norwich is so apathetic at the moment.

Q Not so long ago i went to see Conflict and half way through thier set a fight broke out and as soon as it started Conflict were thier to stop it before it got out of hand. Do you think more bands should act like this to stop violence at gigs.

A I think bands do act like Conflict and try to stop fights at gigs, it's just that violence at gigs has thankfully become a rare thing. A few years back it was common at gigs, but now people relate to each other and

have come to realise that fighting each other does not do anything. There's an enemy out there we should be fighting, not one another.

Q What did you think of the Chernobyl catastrophe, and the way the Russians held back information about it.

A I'm sure any country with nuclear power stations would try to cover up a disaster for as long as they could and then would continue to release vague reports every so often. It's a shame that countries didn't act upon the Chernobyl disaster and shut down ~~nuclear~~ nuclear power stations for good.

Q What does the future hold for D.I., any record deal lined up.

A At the moment we're not doing anything, this is due to various problems, Trub left the band after the Leicester gig and Mark was recruited but he's just broken his arm skate boarding. I'm unable to play bass at the moment due to a glass cutting into my right hand palm leaving me with 10 stitches and a couple of broken nerves and lots of blood. I don't know when it'll get better or if it'll get fit enough to play bass with again. There is no record deal at the moment though we're open to any offers. When we get back into the groove there'll be a new D.I. so watch out.

Q Anything else you'd like to say or anyone you wish to thank.

A I don't know there just isn't

people they put down.

the enthusiasim over here shure there are the dedicated few - (proven by the x million zinez) but it's not enough (again) for example lets take Manchester the 3rd largest city in the U.K- when the Scream, White Flag, Mottek, and the Depraved played last month there could not have been more than 100 people there, why i just dont know at all, i have no answer to this question apart from saying that these so called punx,hardcores or whatever are just as apathetic as the

Q, What do you think of bands playing thrash metal, and singing about the Devil and stuff like that.

A, Thrash Metal-FAB-the devil and shit like that- well Dean you took the words right out of my mouth. Let me explain though as this mix up seems to be common Thrash Metal is not death/black metal they are two very different things, bands such as Anthrax, Mirax, and Whiplash have nothing in common with Venom and the likes of which is just total garbage what i really don't understand is when bands make a conscious effort to play speed metal just because it's hip - like English Dogs (who admitted playing metal because there is more money in it) G.B.H, Onslaught (once ripped off Discharge and now rip off Venom) are all a bunch of jerks off and total non thinking asshole band wagon jumpers.

Thier actions go against what they supposedly believed in - ie originality, self expression and all those other punky beliefs ha ha ha what a joke.

Q, The punk scene is now 10 years old, what do you think it has achieved.

A, Not alot really i begin to wonder if the people in the punk scene do actually think for themselves or are more aware of thier surround

ings. The majority of people are still content fitting in so as for self expression it's done done very little. As for music it's done great because it's opened up many new doors for different styles of music. Also people have made alot of money out of punk all these middle aged housewives going out to get a rad spikey hair cut. This is the reason why i think it's sad to see people still changing on to the 1982 style of punk rocker mohawk, studs etc how will anyone ever consider these people as a threat whilst half of the country are laughing at Gizzard Puke, and lets face it they are a joke.

Q, Do you all snap bogseats for a laugh ha ha ha.

A, Errrrr-no, the snap is when the seat falls and catches your arse.

Q, Are any of you vegetarians or vegans what are your views on animal abuse.

A, Aha time to have another go at the punkies. Yes i am a vegetarian and i feel very strongly about animal abuse, i do not go on sabs or marches or whatever because i feel that not eating meat or any associated products is a sufficient stand. However it seems to be all very well for the H.Cs of our scene to be anti Animal Exploitation and continue to drink and smoke, do they not realise that alcohol and tobacco are tested on animals as painfully and as cold bloodedly as thier mums shampoo. Rats are forced to smoke 25 cigarettes a day for 14 days to make them bronchitic, & they are also injected with pure ethaiol(alcohol) to test for intoxication. And what for??? so the H.Cs can go out and look cool with thier beer and fags and refuse to buy a zine for 20 pence...THINK... I do not drink or smoke.

Q, What do you think of racism

A, A sick philosophy of superiority it is present to a disgusting extent and should be stamped out. The biggest example is obviously the massive South

African problem. Boycott goods fuck up the bank account, non violent demonstration can and will work. Words cannot describe my contempt toward the admirers and supporters of such an in just view. For more info write to- Anti Apartheid movement - 13 Mandela st, London, NW1 0DM. ALSO - Generic, 62 Thornton st, Newcastle-Upon Tyne- 1, England.

Q,Any thing coming up in the future for the Boyseats, tour, records ect.

A,We had a tour planned for the last two weeks in July though due to one thing an another it doesn't look as though it will be coming which is a pity. Also since the demo was recorded we have had a personal shift round and we are now - Jonny Brat Bass, Al Drums, Mark Vocals, and Hibbs Guitar. We have planned as such, although i may be starting up a new band in the very near future which will progress in a different direction(not speed metal HA HA) more garage rock(lots of treble and distortion - yehhh) so watch out for that.

Q,Anything else to add.

A,Yehh everybody write to me, i mean everyone even if it's just for a diat. Lets have a bit more unity in the scene i also run S.S.T.I zine, tape, and international distribution so write for lists and stuff ok. We stock stuff from all over the world so get in touch - well go on then.

Also our demo is available for £1.00 + sae, perhaps there is a review of it elsewhere in this zine? (no there aint Ed) So thanks Dean and good luck with the zine and have lots printed it's worth it, and thanks to all my freinds world wide who keep me going-- COMMUNICATE AND UNITE, Mark.
